UMBER OF CASES GROWING SMALLER

aths From Yellow Fever in New Orleans Very Few.

NERAL CLEANING UP OF CITY.

ere Was a Chill in the Air Today nd Wild Geese Were Seen Flying outhward, a Good Sign that Cooler Weather is Approaching.

New Orleans, Oct. 6.—Up to noon to- there were 18 new cases of yellow r and 2 deaths.

New Orleans, Oct. 6.—There was a t in the air today and the weather clear while reports from the coun- that wild geese were seen flying thward was taken to mean, that ler weather is not far behind for large portion of Louisiana. There re no developments of importance the fever situation, the early re- rts being encouraging, with every robability that the present week will how the largest measure of improve- ent since the fever was first an- ounced.

The New Orleans death rate for Au- ust was: Whites, 26.86; negroes, 7.91; total 2.17, and for September, hites, 18.57; negroes, 27.77; total 1.26, which is declared to be the low- st death rate for any southern city ith one exception.

The decline of the fever is shown by the fact that in August 535 whites ied, while in September with a larg- r population there were only 370.

The deaths from yellow fever in Au- ust were 217 against 111 in Septem- er. In the two months sixteen ne- roes died of the fever.

Jefferson parish, St. Mary parish in which Patterson is located, and La- Fourche parish, in which Leeville is situated, are the only parishes now in which there is any serious infection.

Additional nurses have been sent to Patterson and further medical help is to be forwarded for the last rally against the disease there.

Deaths are rare in the town, and the disease is light in character. In Jef- ferson, Kenner and contiguous terri- tory are steadily being freed of disease, the Barataria district presided over by Dr. Richard has no more sickness and the principal nests of infection are at Grand Isle, the country Dr. Shanty was looking after and the Wildswood plantation. An emergen- cy hospital has been located there, and it is thought that the disease will be immediately controlled.

In the fever parishes in the state in which there is infection the cases are sporadic.

In the city the cases under treat- ment have now fallen under the lowest figure since the fever started. Yester- day there were 164 cases. Of these only about thirty are above Canal street, comprising more than half the city. The originally infected dis- trict there has been but one new case in five days. All the new foci in the preceding 24 hours were in the ninth ward, the extreme lower limits of the city.

Reporting on the situation at Baton Rouge, Dr. Corput says that this city presents a striking example of what can be done by an efficient campaign as it is against chills.

The fever appeared here Baton Rouge started a campaign crusade with the result that when a case developed here there were scarcely any mosquito in the town and there has been practical- ly no spread of the disease. The re- port shows that yellow fever cannot be introduced into any community without danger if the proper precau- tions have been taken to destroy the mosquito agency.

The great fall from the improvement in Vicksburg and the surrounding coun- try, that Dr. Guitras, two nurses and the Sisters of Charity left here to- day. Turkish refugees who fled away from here are not preparing to return to their homes.

Interesting circular was sent out by the Board of Health of Gainesville, Fla., which is being printed and will be distributed this week among the householders of the city giving them instructions as to the character of work it is proposed to do on Oct. 15 and 16, the days se- lected for the final clean up. It is expected to burn 60,000 pounds of sul- phur on the two days.

By personal solicitation an effort is to be made to have President Roose- velt extend his visit here a few hours in order that he may attend the ban- quet which the citizens of Louisiana have been preparing to give him.

The committee on arrangements has decided to send President Sanders, of the Progressive Union, and City Attor- ney Gilmore to Washington to see the president and to assure him that the situation will be so much improved by the 26th that there will be absolutely no danger in his staying over night in the city of New Orleans.

No New Cases at Natchez.

Natchez, Miss., Oct. 6.—The official report issued this evening shows no new cases and five discharged, two of the five being Miss Mollie Baldwin and Miss Camilla Streets.

MISTRIAL IN WRECK CASE.

Railroad Conductor Who Was Charged With Criminal Negligence.

Knoxville, Tenn., Oct. 6.—A mistrial today resulted in the case charging "criminal negligence" against W. B. Caldwell, who was conductor on one of the ill-fated trains wrecked on the Southern railway nar New Market, Tenn., Sept. 24, of last year.

The trial was in the circuit court at Dandridge, Tenn. Caldwell was prosecuted by Judge C. W. Heiskell, of Memphis, whose son, Clayton Heis- kell, was one of the 64 persons killed in the wreck. The prosecution's chief witness was S. E. Clegg, law agent of the Southern railway, who testified that Caldwell admitted to him at the scene of the wreck that the accident was caused by him (Caldwell) forget- ing orders.

The jury stood ten for conviction and two years in prison, and two for acquittal.

Cannot Recover Man's Body.

Chicago, Oct. 6.—A dispatch to the Record-Herald from Estes Park, Colo., says that five hundred feet below the summit of Mount Ypsilon, a tomb is being constructed around the body of Lewis G. Levings, an art student from Canton, Ills., who was killed by falling from the mountain. The body lies at the edge of a bottomless lake and it is impossible to recover it. Men can be lowered because they are able to push themselves free from abutments, but inanimate objects cannot be drawn up by ropes. An inscription giving the young man's name and hapless death will be placed on the tomb, but it is doubtful if any one will ever see it.

Reasons for England's Decadence.

Stanford University, Calif., Oct. 6.—President David Star Jordan in an address to the student body yesterday on things that drew his attention to his recent trip through Europe in speak- ing of England said that his opinion, the decadence of Great Britain over which many Englishmen are lament- ing, is due to two things. One of these is the emigration to other coun- tries of much of the best brain and brawn of England; the other owing having been the death of thousands of England's best men in the numerous wars which that country has waged during the past century.

Protest Against Official.

New York, Oct. 6.—The Associated representatives of the order of Britis Abraham, a fraternal order, with a membership of about 25,000, adopted resolutions yesterday condemning the administration of Congressman Henry M. Goldfogle, its grand master. The order is a life insurance organization and the protest against Mr. Goldfogle has been sent to the legislative inves- tigating committee and to the state insurance department. The protest charges that Mr. Goldfogle's administration is arbitrary and oppres- sive.

THREE CHILDREN BURNED TO DEATH

Conflagration Occurs in New York Tenement House.

WAS WORK OF INCENDIARIES

There Were Many Who Narrowly Es- caped with Their Lives—Fire Chief is Thrown from His Auto and Badly Shaken Up.

New York, Oct. 6.—Three children were burned to death, their parents rescued and taken in a dying condi- tion to St. Mary's hospital, five other tenants sent to hospitals suffering from burns and two firemen hurt in a fire in a 4-story flat house in Reid avenue, Brooklyn, late last night.

The dead are:

Charles Donnelly, aged 9.

Robert Donnelly, aged 5.

Katherine Donnelly, aged 12.

Other incidents of the fire were the birth of a child while the mother was being removed from the burning build- ing and an accident which wrecked Fire Chief Croker's automobile, and in which the chief narrowly escaped se- rious accident.

The fire is believed to be incendi- ary origin.

The hallways of the building were every occupant of the building was filled with flames and smoke and every occupant of the building was asleep when the flames were discovered by William Tease and James Nugget, fire men, who were off duty.

They found a ladder in the back yard, and, after climbing up the fire escapes, awoke the tenants by break- ing into their apartments.

At the top floor the fire had spread most rapidly.

The two rescuers were compelled to carry Mrs. Joseph Hanlein, one of the tenants of that floor, down the fire escape. In doing so the ladder at the bottom broke and the woman fell on Tease, injuring him seriously.

Mr and Mrs. Jeremiah Donnelly, who occupied the other part of the upper floor, were afterwards found un- conscious on the floor of their room, where they had tried to reach a win- dow and failed.

They were brought out, but the fire- men did not know that their three children were asleep in their beds un- til their burned bodies were found later.

Other occupants of the building were swung from the windows across those of an adjoining building, or were dropped into the arms of men below and when the the fire department ar- rived the building was afire from top to bottom.

Mrs. Rose Moses was carried on a mattress across the street, where she gave birth to a boy.

Fireman Christopher Leavy was knocked from a ladder by a stream of water and suffered concussion of the brain.

While hurrying to the fire Chief Croker's automobile was upset and the chief thrown out and badly shaken up.

Jeremiah Donnelly and his wife are suffering from having inhaled flames or smoke and are not likely to recover.

Man Shot from Ambush.

Nashville, Tenn., Oct. 6.—A Hick- man dispatch says that last night, after he had returned from church, and was placing his buggy under a shed, Emmet W. Heath, a prominent citi- zen and teacher of this county, was shot from ambush. Death lasted thir- ty minutes and gave the name of his assassin, which has not yet been made public.

Georgia County Goes Dry.

Dalton, Ga., Oct. 6.—The election held in Whitfield county for and against the prohibition to establish licensees in Dalton, resulted in an overwhelming majority against the proposition, several districts not giv- ing a single vote for the establishment of saloons.

WANTED TO LYNCH WOMEN.

Awful Crime in Sunflower State Stirs Up the Community.

Fort Scott, Kan., Oct. 6.—The coun- ty jail here was surrounded last night by men who insist that Mrs. Belle Riggins, her daughter Claisea Shaw, aged 14 years, and her husband, Geo. Riggins, held by the coroner's jury for the death of Riggins' 6-year-old son by a former wife, should be lynched.

The sheriff, expecting an asault on the jail, has, it is reported, fled with the prisoners. The jail is strongly guarded. That the little boy was starved and tortured to death is spe- cifically charged by the coroner's jury.

The boy's 2-year-old sister was also cruelly treated, and is at the point of death in a hospital here.

While Mrs. Riggins' own children were well fed and treated kindly, the two step-children, according to the ev- idence presented to the coroner's jury, were literally starved.

For several weeks, it is charged, Mrs. Riggins and Miss Shaw have been starving, whipping and otherwise abusing Mrs. Riggins' two step-chil- dren, a boy and a girl, aged 7 and 13 years respectively. Testimony was brought out at the coroner's hearing that the children had eaten from swill barrels in alleys and had been hor- ribly whipped.

DAUGHTERS MEET IN 'FRISCO.

Keys of the City Were Turned Over to the Organization's Members.

San Francisco, Oct. 6.—At Wednes- day's session of the Daughters of the Confederacy, Mayor Schmitz was in- trodnced and turned over the keys of the city to the delegates. Most of the forenoon session was consumed in the reading of the reports from the various chapters represented.

Mrs. Wooster, who presented the re- port of the Chicago chapter, said:

"You will hear from the Chicago chapter in a great degree in the future. Transplanted Daughters, we still think of the south with warm, loving loy- alty."

Mrs. Broadus presented the report of the Kentucky division, which has 54 chapters.

The three principal candidates for the presidency of the association are Mrs. Lizzie C. Henderson, of Mississip- pi; Mrs. C. K. Stone, of Texas, and Mrs. J. P. Hickman, of Tennessee

Explosion Kills Two Men.

Cincinnati, Oct. 6.—A terrific explo- sion of gas under the floor of the coun- ty commissioners' office at the court house, Wednesday afternoon killed George Zimmerman, chief clerk of the commissioners, and Russel Blair, an assistant clerk. Th explosion tore loose the floor and completely wrecked the county commissioners' room. It also shattered most of the windows in the courthouse. The explosion was occasioned by escaping gas coming into contact with a lighted match in the hands of Patrick Welsh, su- perintendent of county buildings, while he was looking for a gas leak in the courthouse.

Hearst Nominated for Mayor.

New York, Oct. 6.—William Ran- dolph Hearst was named as a candi- date for mayor at a municipal owner- ship mass meeting in Grand Central palace and a committee appointed by J. G. Phelps, who presided, will select the remainder of the ticket. Resolu- tions denouncing both of the old par- ties as being dominated by trust in- terests, that the people of New York should elect officials to oppose cor- porations, was adopted with much en- thusiasm. Mr. Hearst was hailed with tumultuous applause. He denounced the Republican and Democratic lead- ers.

White Man to Hang.

Nashville, Tenn., Oct. 6.—A Russell- ville, Ky., dispatch to the Banner says that the jury in the case of W. R. Fletcher, charged with criminal assault on Mary Gladder, a German girl, this morning returned a verdict of guil- ty and fixing the punishment at death. Guy Lyon, charged with the same of- fense, is now on trial.

ONE MAN KILLED AND FIVE INJURED

Light Engine Collides With Loaded Freight Train.

ACCIDENT NEAR BIRMINGHAM

The Man Killed Was an Extra Fire- man on the Freight Learning the Road—Accident Occurred at a Rail- road Crossing.

Birmingham, Ala., Oct. 6.—A Louis- ville and Nashville light engine go- ing to Boyles collided with a South- ern railway freight half a mile from that place on a crossing early today.

One man was killed and five hurt.

The dead man is H. E. Abercrombie of Villa Rica, Ga., extra fireman on the Southern train, who was being taught the road. The wounded are:

M. Fulgham, Southern railway en- gineer, badly hurt; Brakeman A. B. Davis, of the Southern, internally in- jured; Fireman Charles Glass, of the Southern, fatally injured; Engineer D. M. Jones, of the Louisville and Nash- ville, seriously; Conductor Stewart, of the Louisville and Nashville, slightly injured.

NEGRO PAYS DEATH PENALTY.

One of the Gang Who Robbed and Murdered a Flagman.

Birmingham, Ala., Oct. 6.—Wesly Hale, a negro, was hanged in the coun- ty jail yard here this morning.

On the scaffold he said he was not guilty of the crime charged to him, though he had perviously confessed. Hale added, however, that he was "ready to face the music," and died without fear.

Hale was a member of a gang of negro murderers and highwaymen who murdered and robbed Ed Almon, a flag- man of the Louisville and Nashville railroad at Ozmoor, Ala., on the night of Jan. 12 last.

According to Hale's confession, the gang attacked Almon while he was guarding the rear of his train. Hale hit him with a club when Almon pulled a pistol and shot and wounded Hale. The negroes then knocked Almon down, took his pistol from him, shot him to death and robbed him.

Hale was found lying wounded in the woods the next day.

On Hale's evidence Andrew Shelton was convicted and will hang on Oct. 27, while Eugene Johnson was given a life sentence.

Hale was to have hanged in August, but was reprieved in orde rthat he might testify against his pals.

Prisoner Attends Wife's Funeral.

Hartwell, Ga., Oct. 6.—F. L. Ste- phenson, who is confined in prison as a result of his conviction of killing Ewing, on a Southern train in Atlanta several years ago, was allowed by the authorities to come to Hartwell to at- tend the funeral of his wife, Mrs. Ida Taylor Stephenson, who died recently. The entourage of the guard and Mr. Ste- phenson were borne by the Hartwell friends of Mr. Stephenson. Mr. Ste- phenson has an application pending for pardon before the prison commis- sion. He is a member of one of the most prominent families in northeast Georgia and the affair was greatly de- plored here.

Vanderbilt Lines Consolidate.

San Francisco, Oct. 6.—The announce- ment is made that the local offices of the various Vanderbilt lines will be consolidated on Nov. 1, and that after that date Charleston C. Crane will handle all the passenger business of the lines, and that John Gill, who has just returned from the east, will as- sume the responsibility of the freight department. The consolidation follows the appointment several months ago of Captain C. J. Grammer to the po- sition of traffic manager of the Van- derbilt lines. He has been, it is said, long considering a plan of consolida- tion.

UNIVERSITY PLANS WERE ACCEPTED

Messrs. Edwards & Walker of Columbia, S. C., the Winners.

WORK IS IN EXCELLENT HANDS

Complete Plans Presented for the New University Buildings to be Erected at Gainesville—When Complete Will be Grand Structure—To be Fire-Proof.

The Florida Board of Education met in Jacksonville last Thursday and decided on plans for the new University buildings to be erected on the site selected in the western part of this city.

After a session lasting all day and part of the night, it was decided to accept the plans of Edwards & Walters of Columbia, S. C., and the entire construction, when completed, will necessitate an outlay of upwards of $1,500,000.

Of course it is not expected that this amount will be used at once, but the buildings will be so arranged as to admit of the construction of a portion of them in time for the opening of the college next year in this city, two dormitories being considered sufficient to admit of opening the University at that time, and the other work of completion will be pushed forward as fast as the funds will admit.

There will be no temporary buildings erected, but those that are put up will be in accord with the general plans, and when the last work is done there will be a harmonious blending of the entire plan of substantial fire-proof structures.

THE YELLOW FEVER.

Pensacola Having a Struggle—Condition at New Orleans Hopeful.

Pensacola, October 6.—Two deaths and two cases of fever were reported up to noon today.

For the twenty-four hours ending at 6 p. m. yesterday there were 18 new cases and 3 deaths. This record was by no means encouraging, and it is evident for the next six weeks Pensacola has a serious condition to contract. The increase of new cases is due to the fact that certain people who have been fighting the health officers are now reporting cases.

The total number of cases to date number 209 and 29 deaths. Number now under treatment 92.

At New Orleans.

New Orleans, October 6.—The conditions here continue hopeful. The record for the twenty-four hours ending at 6 p. m. yesterday shows only 28 new cases and 2 deaths. From 6 p. m. yesterday until noon today there were 13 new cases and 2 deaths.

Total number of cases 3,124. Total number of deaths 405.

Entertainment at Rochelle.

Martha Perry Institute of Rochelle, of which Prof. J. H. Owens is the efficient principal, gave an ice cream social and entertainment at the hall Friday night, which was well attended and highly enjoyed.

The proceeds were donated to the payment of the piano now in use in the school. Quite a neat sum was realized, and everybody who attended are perfectly happy over the occasion.

Prof. Owens is making a fine institution of Martha Perry Institute this year, because he is doing good work and has the co-operation of the patrons of the school.

Jolly Chowder Party.

A jolly chowder party made a trip to Kirby's Pond Friday and enjoyed one of the finest chowders Judge Carlisle ever prepared, which says a great deal, as the Judge is regarded as the champion chowder maker of this section. The crowd was not large, but there were enough present to "drain the pot," and more might have been confused if it had been in evidence.

Friday Night's Fire.

An alarm of fire was turned in at 8 o'clock Friday night, Box 64, which summoned the department to the house occupied by Allison Hails, colored, near the Gainesville & Gulf depot. The department responded with the usual promptness, but the fire had gained such headway that the house and contents were destroyed.

Postmasters Appointed.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. SENTIMENT AGAINST M. WITTE.

Some Russians Don't Believe He Deserves Honor for Services.

St. Petersburg, Oct. 6.—A strong sentiment against Count Witte developed at a caucus of St. Petersburg municipality yesterday evening, called to discuss civic action in recognition of his services at Portsmouth.

Suggestions that a banquet be given in his honor and that he be presented with the freedom of the city or an address were rejected and a resolution was adopted declaring that he is not worthy of any special honor because his services at Portsmouth "were only a redeeming sacrifice for the political mistakes in which he has acquiesced, and which were responsible for the war."

The first act of the ministerial committee, the sessions of which have been resumed, with Count Witte's return, has been an important concession on the language question permitting the commercial schools at Warsaw, Riga and Reval to use Polish or German as the language of instruction in all studies except Russian grammar, history and geography.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

A Glasgow Cemetery.

The Necropolis cemetery, Glasgow, as originally planned, contained almost exactly twenty-four acres available for burials, and it was suggested that each division of one acre should be named after a letter of the Greek alphabet, which contains twenty-four characters. For various reasons this idea has not been fully carried out, but fifteen sections of the cemetery have been so named from alpha to omega, the monosyllable letters between these being omitted. The names have not been applied in any particular sequence, but with the aid of a small map they are useful in locating any particular spot in what is now one of the most densely filled graveyards in the kingdom.

Just What He Meant.

An American in London once attended a dinner where Henry Arthur Jones told a story about Beerbohm Tree.

"Mr. Tree," said the playwright, "met a friend of his one afternoon in Regent street.

"The two stood and conversed a little while, and then Mr. Tree said:

"'Have you been down to see me act lately, my boy?'

"'No: too poor,' said the other.

"'Too poor,' Mr. Tree exclaimed. 'Why, you spend enough on wine and cigars'—

"But the other, nettled, interrupted.

"'I don't mean I'm too poor. I mean you're too poor,' he said."

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." Famous Property Changes Hands.

Lenox, Mass., Oct. 6.—Shadow Brook, formerly the country property of Mr. and Mrs. Anson Phelps Stokes, of New York, will, within a week, pass to Samuel P. Shotter, of Savannah, Ga., who is completing negotiations for the purchase of the house and a considerable block of the acres which surrounds it. This property cost Mr. Stokes $1,500,000. The house, which has a frontage of over 400 feet, is next in size to George Vanderbilt's Biltmore, as an American private resort. It is understood here that Mr. Shotter will pay about $950,000 for the house and about 200 acres of land, including a valuable lake frontage.

ELKS WILL HAVE A FINE BUILDING

Everything for Comfort of Elks, Their Families and Friends.

WILL BE FULLY UP TO DATE

Building Will be Erected for Modern Purposes and Principles—Many Club Features Will be Included in the Plans and Specifications.

Gainesville Lodge No. 990, Benevolent and Protective Order of Elks, are prospering—or are about to prosper—as they will soon have one of the finest and most up-to-date buildings in the city.

The Gainesville Lodge of Elks was organized only a few weeks ago. The order, here as elsewhere, is composed of the very best people of the community, and no one who cannot be vouched for by the public as being strictly a gentleman and a good fellow is admitted to membership.

The Elks, which is a social as well as a fraternal order, are determined to erect in Gainesville one of the finest and most modern lodge and club rooms in the country, at a cost of from $18,000 to $20,000. The building will be complete in every detail. It will contain a restaurant or cafe, cigar stand, reading room, billiard parlor, bowling alley, and other attractions where not only members of the order, but friends, visiting Elks and members of families of Elks, may go and feel assured of perfect safety and courteous treatment. It will be a venture in Gainesville which has long been needed, and which will be successful and popular.

The club-room will be operated on strictly moral and refined principles. It will be a place where ladies, wives, mothers and sisters of Elks may congregate in the evening and enjoy themselves, and altogether the resort will be a most desirable one.

A number of lots have been looked over by the committee appointed for the purpose, but no selection has yet been made. As soon as a lot is selected preparation will be made for a building, which will be a credit not only to Gainesville, but the entire State.

The rules regarding the cutting off of water and turning on the same will be rigidly enforced by order of the City Council, if not paid by the proper time.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

There is not one State in the apple-growing regions that reports a good crop this fall.

Russia and Germany are trying to get France to join them in a triple alliance. France may still remember Metz.

The report that John Alexander Dowie is paralyzed is denied. He is just paralyzing some of the suckers who have money.

Norway and Sweden will settle all differences hereafter by arbitration. Other countries would do well to follow the example of these sensible people.

The Cudahy and Cherokee oil and gas companies have consolidated, with a capital of $6,000,000. It will be known as the Cudahy Pipe Line. A pipe dream.

If the hangings don't hang fire, there will be three hangings in the State within a week: Spires in Jackson county, Lamb in Manatee and Edwards in Leon.

Some of the roads claim the Interstate Commerce Commission shows favoritism to some of the roads. But the commission has overlooked the people. Purely an oversight, perhaps.

There is no doubt of the fact that President Roosevelt has taken his position unequivocally on the railroad rate question and will ask of Congress at the next session practical, adequate, and uncompromising rate legislation.

The forthcoming message of President Roosevelt will have to be boiled down by a "condenser" to be all read before the close of the session of Congress for the holiday vacation, if he touches on all questions that should be considered.

Greene and Gaynor have been having a desperate time in getting started for this country. They have no doubt become very much attached to Canada. This country has in past years been very attractive to some many of our financiers.

Cortelyou is booked for secretary of the treasury on the retirement of Shaw. This the Republican National Committee has deemed advisable, since the insurance company aid will probably be cut off. Besides there will be no middle-men.

The Southern manufacturers are fast advancing in every line, and with fair competition will soon lead in all branches of industry. With coal and iron in plenty, enough granite in Georgia to supply the United States, we have nothing to fear, if we have fair rates of transportation.

The very existence of the State of Florida depends on shipping rates. When the railroads cannot be utilized and shipping by water is resorted to, the process may be a little slower, but it furnishes an opportunity to get lower rates. The railroads are a necessity for the advancement of the country, but there should be a rate fixed that is not discriminating.

RATE-MAKING AND REGULATION.

"Political rate-making for railroads" is the term used by former Secretary Richard Olney in an article on the question of government control of railroad rates, says The Wall Street Journal.

Mr. Olney makes the same error in the discussion of this question that so many other opponents of President Roosevelt's policy fall into. What is proposed is not rate-making at all. Under a system of government control such as proposed by the President, the railroads would continue to make rates the same as they do now. The Roosevelt proposition is the regulation of rates, which is something very different indeed. The railroads would make rates, and all that the government would do would be to change such rates as were found to be inequitable, after due investigation and trial, and to put equitable rates in their places.

Mr. Olney does not exaggerate the importance of the rate-making power, when he says that the rates charged by the railroads affect all classes of the community, that they determine very largely the outcome of all private enterprises, and that upon them hinge only too often the material well-being, if not the very existence, of towns and cities, and seaports, and other sections of the country. Mr. Olney urges the importance of the rate-making power as an argument why this power should not be conferred upon a government bureau. On the other hand, it is the very importance of this rate-making power that is responsible for the popular movement in favor of government regulation of rates. It is too great a power, it is held, to be exercised by private individuals without government control. Mr. Olney declares that government ownership of all railroads is obviously the goal towards which some of the government "rate-makers" are striving. On the other hand, the advocates of government rate regulation declare that, unless such a plan of establishing a square deal between the railroads and the people is adopted, the inevitable result will be government ownership.

There would appear not to be very great difference in regard to the main facts between Mr. Olney and the advocates of federal control, but there is the widest difference as to the interpretation they put upon these facts.

EXPLAINS IT.

There has not been an able-bodied tramp in Gainesville this season. There has been no occasion for a man to be idle who wanted to work. There are few States in the Union that can show a better record on the tramp question than Florida.—Gainesville Sun.

That's one advantage in living off the main line of a railroad.—Lake City Index.

Perhaps so. And that may explain why some people drifted into Lake City.

At a meeting of the Georgia Interstate Saw Mill Association, held in Savannah Tuesday, the question of labor was discussed and several firms declared their intention of doing away with negro labor and employing foreigners. One firm has a force of Boers employed, but the experiment is so recent that it was almost too early to give any report of the probable result. Other concerns will make an effort to secure Slavs or Swedes.

The Pensacola Journal says that Arkansas has quarantined Florida oranges. Now, if all the States would quarantine Florida oranges it would give the oranges a chance to get ripe before they are marketed, which would be a good thing all round. Florida oranges should be "quarantined" every year till the fruit gets ripe and fit to eat.—Leesburg Commercial.

When a letter-writer wants "a reply by return mail," he should at least slip in a stamp for the same to show his good faith.

The people of Tampa were talking of an "Anti-Injunction Ticket," but before their plans were formulated they were "enjoined."

While Georgia is longing for the coal man to come and kindle the fire, we are enjoying the most delightful early autumn weather in Florida that mortal man ever experienced.

The individual deposits in the banks of the State have materially increased in the past year. The abandoning of the editorial excursion in the spring may, in a measure, account for much of it.

When people begin to yawn, wind the clock and disappear into the kitchen to get a drink of cold tea, it is time evening callers, if they are the least bit nervous, should look around for their lid.

A book agent called at a pleasant home a few days ago, and was laboring hard to inform the lady of the house of its very interesting contents, when she interrupted: "The book is all right and I would like to have it, but it is too thin." The agent again commenced his argument of the solid work and the substantial articles, when he was cut short with: "I know it's a fine work and neatly bound, but it is too thin to put in a common chair and raise Freddie up high enough to sit at the table. I guess we'll have to be satisfied with the family Bible." And the agent left in disgust.

The question as to whether it is better to bond the city for $50,000 to construct sewers and thus keep out epidemics, or let them come and pay that amount to get rid of them and still have no protection from the ravages of disease, not counting the loss of those we love, should be given due consideration. We have waterworks, and need sewers to carry it off. With a good system of sewers Gainesville will be as healthy as any city in the country.

Tired Nervous

When you feel languid, tired, nervous and irritable, your vitality is low—your supply of nerve energy exhausted, and your system running down for lack of power,

The organs of the body are working poorly, or not at all, and you are not getting the nourishment needed. This soon impoverishes the blood and instead of throwing off the impurities, distributes it all through the body. This brings disease and misery.

Feed the nerves with Dr. Miles' Nervine, a nerve food, a nerve medicine, that nourishes and strengthens the nerves, and see how quickly you will get strong and vigorous.

"My wife suffered with nervousness previous to a recent attack of typhoid fever, but after her recovery from the fever, she was much worse, and could hardly control herself, being exceedingly nervous when the least excited. She was very restless at night, and never had a good night's rest. She also suffered much from nervous headache. Dr. Miles' Nervine was recommended by a friend. After the first three doses she had a good night's rest, and at the end of the first week's treatment she was wonderfully improved. Continued use of Nervine has completed her entire cure."

Israel J. McCall of Jasper, the missing clerk of Hamilton county, has not yet been heard from, and it is feared he has been foully dealt with. His accounts were found to be all right and he had quite a sum of money with him when he went away.

Dr. H. F. Boulter, the Pensacola dentist who said there was no yellow fever there and then died of the disease, was a member of the Knights of Pythias and the noble knights of that city turned out in a body to his funeral. Pensacola K. P.'s are true blue.

George S. Whitehead, a negro ice man of Jacksonville, has been doing a little business on the side. He stole a customer's purse containing $10, and when arrested and searched had a number of pawn tickets which showed that he had pawned numerous household articles. He will settle at the c. c.

The annual camp meeting of the Church of God, better known as Evening Lights, will begin next Friday on their grounds at Poole Branch, four miles east of Fort Meade. The church having a large membership in various parts of South Florida, its meetings are always well attended.

George R. Pierce, one of the most prominent citizens of Key West, passed away Thursday morning after a lingering illness. He was well known and liked by all who knew him. He was 72 years of age and one of the charter members of the Odd Fellows of that city, and was prominent in the State organization.

Nicholas Hernandez of Martinez, Cuba, who was given a hearing last week before United States Commissioner Semple, and is wanted by the Cuban Government for embezzlement, was held by the commissioner at Key West for extradition. Julius Otto represented the Cuban Government and Attorneys Brooks and Roberts the defendant. The Secretary of State will pass on the cases before he leaves for Cuba.

Ricketts Will Not Be Appointed.

Chicago, Oct. 6.—A dispatch to the Record-Herald from Washington says that Oscar J. Ricketts, of Illinois, acting public printer, will not be appointed as the successor of Frank W. Palmer, of Chicago, the deposed head of the government printing shop. The president acknowledged Mr. Ricketts' ability but for the good of the service he has concluded it best to select some one who has not bee in contact with the factions or cliques in the office.

MISSOURIAN AFTER McCALL.

Insurance Superintendent Says He Must Replace Funds.

Chicago, Oct. 6.—A special from Jefferson City, Mo. says:

State Insurance Superintendent W. D. Vandiver last night announced that unless John A. McCall resigned the presidency of the New York Life and repays the money which the commissioner thinks has been imporperly diverted from the trust fund for political purposes, superintendent Vandiver, will immediately take steps to take away the company's charter in Missouri and stop the company from doing business in that state.

"Mr. McCall, Mr. Perkins, and all others involved must resign," said Superintendent Vandiver, "and if the case is within the criminal statutes of New York they should be prosecuted by the New York authorities. One thing is certain, they must replace these funds or they can't do business in Missouri while I am superintendent."

Thousands of Testimonials Received Every Year.

An Ideal Medicine.

MISS LOUISE MATHER, 12 Church St., Burlington, Vt., Vice-President Bureau of Exchange, writes:

"Your medicine is an ideal woman's medicine and by far the best I have known to restore lost health and strength.

"I suffered for several years. My back ached, I had bearing down pains, and frequent headaches.

"I would often wake from sleep in such pain that I would suffer for hours before my eyes would close again. I dreaded the long nights as well as the weary days.

"I consulted two physicians, hoping to get relief. Finding that their medicine did not seem to cure me, a friend advised me to try Peruna.

"I am certainly glad that I followed her advice, for Peruna was the only medicine for me. Every ache and pain disappeared in four months and I am in perfect health now.

"My earnest advice to suffering women is to try Peruna, for I feel sure they will not be disappointed in it."—Louise Mather.

Enjoying Splendid Health.

Mrs. L. E. Tyler, Santa Monica, Cal., Secretary Santa Monica Musical Society, writes:

"I was troubled for over three years with systemic catarrh, complicated by female weakness and inflammation.

"This induced frequent headaches, nervousness, hysteria and sleeplessness, which nothing could relieve until I tried Peruna.

"I began to feel better after I had taken the first bottleful and improved from week to week until at the end of about eleven weeks I was entirely well.

"I am pleased to say that I have enjoyed splendid health now for nearly a year. I have a fine appetite, enjoy sound sleep and do not suffer from any more headaches or other pains."—L. E. Tyler.

Completely Regained Her Health.

Miss Edith Reams, 726 North Main St., Dayton, O., writes:

"I suffered for some time with both lung and female troubles.

"I had been under the treatment of a good physician for about nine months without obtaining any relief, when Peruna was recommended to me. After taking twelve bottles of this medicine I have completely regained my health.

"I am pleased to recommend Peruna to any one suffering from the above ailments."—Edith Reams.

America is the Land of Nervous Women.

The majority of women are nervous because they suffer from some form of female disease.

The greatest obstacle in the way of recovery is that they do not understand that catarrh is the main source of their illness.

Women who are in doubt as to their ailments should write to Dr. Hartman, President of The Hartman Sanitarium, Columbus, O. Give him a full description of your symptoms, previous treatment and age.

He will promptly reply with full directions for treatment, free of charge.

FUTURE TENOR SINGER FOUND.

Experts Say that After Proper Instruction He Will Startle World.

New York, Oct. 6.—In the person of Isaac Routman, an humble street cobbler of the East Side, and who is a young compatriot of Jean De Reszke, the famous Polish singer. It is believed that a great tenor has been accidentally found who will electrify the dramatic world that will rank with Messrs. Caruso and De Reszke.

"After a course of proper instructions," says Dr. H. Holbrook Curtis, an authority on the voice, and who made the "find," "I believe he will rank some day with our greatest tenors."

"He is marvelously gifted," says Miss Fritzi Scheff, who has sung with all the great tenors of the world, "and he will equal Caruso or De Reszke. He shall have a stage name—Caruske, a combination of Caruso and De Reszke, for he will equal them both," and as Raphael Caruske young Routman has passed into the care of Charles Dillingham, Miss Scheff's manager, who will educate him for the operatic stage.

Big Fire in Lumber District of Wisconsin Destroys Property.

Rhinelander, Wis., Oct. 6.—Fire in the lumber district of this town destroyed property valued at $600,000 and rendered 400 people homeless. The fire started in the lumber yard of the Brown Bros. Lumber company, and after sweeping that yard clean, it spread to the Robins Lumber company's yards, which were entirely destroyed. A high wind was blowing, which carried the fire into the residence district adjoining the lumber yards, destroying about 75 small dwelling houses. About 40,000,000 feet of lumber was destroyed.

The homeless people are being cared for tonight in the city hall and other buildings.

The total insurance is about $400,000.

The principal losers are Brown Bros. Lumber company, lumber, $250,000; insurance, $175,000. Robins Lumber company, $225,000; insurance, $165,000. Two school houses and engine houses, $25,000.

The loss on dwelling houses is about $75,000.

Weeding Out Inefficient Officers.

St. Petersburg, Oct. 6.—Inefficient officers are to be gradually weeded out of the Russian navy during the next five years and pensioned off to make room for better trained men to command the reconstruction of the navy. In a rescript addressed to the minister of marine, Emperor Nicholas directed him to compulsorily retire all naval officers who are unable to fulfill the higher requirements which the proposed reforms in the service will demand. Officers retired before reaching the age limit, are to be pensioned on favorable conditions to be determined upon later.

IN THE BASQUE COUNTRY.

The Peculiar Language and Odd Customs of the People.

Of the strange scenes and customs of the Basque country a traveler writes: "I was struck by the way the women walked and carried themselves. A fat old woman with a huge tray on her head walked along at a swinging pace, shouting her wares meanwhile at the top of her voice. I saw a woman carrying on her head first of all a large tray of fruit (its size can be imagined when I tell you that it was afterward her stall). On the top of this were a basket of washing and a big umbrella to be used to cover the stall. Then in her left hand she carried a supplementary stall, and by the other she led a little child which could just reach the mother's hand by holding its own up as high as it could stretch.

"I was waiting once at a little wayside inn in the village of Ascain when I saw an old lady, followed by two great fat white pigs. They all three waddled over to the village pump, and then, procuring some water in a pail, the old lady proceeded to wash her charges. She cleaned them most assiduously—eyes, ears, tail, back, hind quarters and feet.

"There is a dignity of carriage about all the women in this country. I fancied it might be due to the fact that formerly, before the 'Code Napoleon' came into operation, the law obliged the firstborn, whether boy or girl, to inherit the patrimony and continue the head of the family, the husband taking the wife's name when the inheritor was a woman, thus giving the woman a perfect equality from her birth. The matrons are not less beautiful than the younger women.

"Quite unlike any other language is that of the Basques. Although when hearing the people talk a Spanish sound seems to be occasionally emitted, it is not really at all like Spanish. I was amused to find that 'no' is 'ess' in Basque, and when I asked what 'yes' was I thought at first the answer was 'na,' which would have been very curious, but it turned out to be 'ba,' with the 'b' softly pronounced."

A PERFUME THAT SMELLS.

The Awful Odor That Comes From Pure Attar of Roses.

The perfumer took from his desk a small flask of copper.

"In flasks like this attar of roses comes to us," he said. "Attar of roses is worth from $10 to $25 an ounce, according to the market. This flask is empty now, but in it a little odor still lingers."

The visitor smiled delightedly. He had never smelt pure attar of roses before. Now he unscrewed the stopper and, closing his eyes, with an ecstatic look he applied his nostrils to the flask.

But only for an instant. Then he threw back his head, twisting his features into a grimace of disgust, and he exclaimed:

"Garbage! Bone yards! Glue factories!"

The perfumer laughed.

"All essential oils smell like that," he said. "Yet no good perfume can be made without them."

He took from a shelf a cut glass jar filled with a thick, yellowish oil that looked like petroleum partly refined.

"In this jar," he said, "there are forty ounces of pure attar of roses worth over $500. You know how the attar smells alone. Now watch me make a rich perfume by adding things to it."

He put a few drops of the attar into a vial. He filled the vial with spirits of musk, another of orris, then one of neroli, one of rose, of violet, of orange, of vanilla, and, finally, the oil of cloves and bergamot.

"There," he said, "smell that. Isn't it exquisite?"

"Exquisite!" said the visitor.

"Well, without its foundation of the malodorous and costly attar of roses it wouldn't smell any better than a plate of soup."—New York Herald.

As a Clincher.

"I'm not so particular about speed, but I must have a gentle horse," repeated Mr. Green. "My wife wants to drive, you see. Will you warrant this horse to be safe?"

"Certainly," said the dealer reassuringly. "He's a regular lady's horse."

"You are sure he's not afraid of anything?" asked Mr. Green anxiously and for the tenth time.

The dealer assumed an air of reflection.

"Well, there is one thing that he has always appeared to be afraid of ever since I got him," he admitted unconsciously. "It seems as if he's scared to death for fear some one might say 'Whoa!' and he not hear it."

The Mystery Surrounding the Beautiful Display in G. W. HYDE'S Window Revealed in the following

A number of our enterprising merchants have arranged what will prove to be a most interesting contest between the High School, Twentieth Century Club, Odd Fellows' Home, B. P. O. Elks, Volunteer Firemen, Masons, W. O. W., K. of P., Gainesville Guards, Kirby Smith Chapter or J. J. Finley Chapter of the U. D. C., or any church, Sunday school, hospital organization or institution you would wish to own the beautiful library valued at $500, now on display at G. W. Hyde's.

THE REWARD will be a magnificent library, consisting of 200 volumes of the standard subscription publications of the day as follows: The Great Chas. Dudley Warner "Library of the World's Best Literature," 46 volumes; "Library of the World's Greatest Classics," 30 volumes; the Anglo-American Dictionary and Cyclopedia, 12 volumes; Library of Oratory, by Depew, 15 volumes; Works of Balzac, 36 volumes; the Library of Poets, 32 volumes; the World's Best Essays, 10 volumes; History of Our Great Commanders, 12 volumes.

Each and every one of these books are specimens of the best mechanical execution, which examination will prove.

The conditions of the contest are as follows: Any lodge, church or school, club, hospital or organization, public or private, is eligible to the contest. Votes for individuals will not be counted. With each 10 cents purchase a ticket will be given by the merchants through whose liberality these grand libraries are furnished, on which will be written the amount of the purchase and the number of votes. The purchaser will write on the ticket the institution or organization for which he or she desires to vote, sign their names and deposit the ticket in the ballot box in the store in which the purchase is made.

The standing of the contestants will be published exclusively in each Sunday's issue of The Sun until October 14th, 1905, at 7 o'clock p. m., when the remaining votes will be counted, and the magnificent library awarded to the organization having the largest number of votes. The Sun will publish in each issue a coupon which will entitle the holder to two votes that will be credited to the institution that is written on space provided for same when delivered to the ballot boxes in either of the stores.

Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking "The Texas Wonder," Hall's Great Discovery, and, being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder."

J. M. Manning and son, Miller, left yesterday for Gypsy, where they will spend a few days as guests of the former's brother, I. C. Manning. He recently sold his property in this city to other parties and will soon make his departure for Francis or Palatka, where he will in future reside.

Sheriff Fennell and Archie Jackson went on a cat hunt yesterday morning, and when a short distance from the city the dogs jumped an immense cat. After an exciting chase the animal was killed. It was one of the largest caught recently, tipping the beam at forty-six pounds, and measuring five feet from tip to tip.

Among the prominent visitors to this city yesterday was Frank A. Teague of Ocala. Mr. Teague, who is well posted on all matters, states that the prospects for the coming citrus crop of Marion are fine, and he believes it will be the largest for many years. "The fruit is sound, firm and of uniform shape as a rule," he said, "and there is no reason why old Marion should not show up well in citrus fruits this year."

Gainesville is still building in a commercial way. New stores have been going up for the past year, and up to the present time there has been a ready demand—in fact, before the buildings were completed they were leased. Among the latest stores are the three on East Union street now being erected by J. P. Bauknight. These stores, while not as large as some, are very desirable, and will no doubt find ready rental at a fair price.

How much wiser to put the care of your eyes in the hands of such renowned eye specialists as Dr. E. H. Armstrong and staff of Jacksonville—people who have been located in this State for years, and who are going to make regular quarterly tours throughout the entire State for the benefit of their patients—than to place your case in the hands of some traveling fakir with a New York or other fictitious address. We are sure that the people of Gainesville will appreciate this fact and give Dr. Armstrong their patronage. He will be at the Brown House on October 8th and 9th. Dr. Armstrong and staff will visit Hawthorn on October 10th.

Among the prominent Levy county visitors in this city is S. H. McKinnon of Rosewood, a prominent naval stores manufacturer. Mr. McKinnon is a young man of exceptional social qualifications, a good fellow and a bright young man. He is a native of South Carolina, but has been in Florida for several years, and notwithstanding that he is one of the youngest naval stores operators in the State he is regarded as one of the most successful. He is working eighteen crops with success, and anticipates an increase next year. Mr. McKinnon came to "take the Ist degree" in Gainesville Lodge No. 39, K. P. O. E., and is very much impressed with the order.
